

VEGA

Dirt Series Florida

New Junior tire program for race 5 & 6 of the Vega Dirt State Series.

The series has listened to requests from our junior racers and modified the tire program for the final two races. Beginning with the Valdosta event, drivers in Junior 1, 2 & 3* classes will have the following options on tires.

Drivers may purchase Vega tire vouchers as you have done this season.

Drivers may check in new or used tires that you bring from home.

Junior 1 is limited to two MCS 800 tires thin new or used.

Junior 2 & 3 may use any combination of the options above up to a total of 2 sets.

This new policy for the Junior classes will allow a racer to use a used set of tires for the event if they wish. All tire sets must be checked in at the tire distribution table Saturday morning before going on the track. If tires are brought from home the bar codes must be legible and scannable for that tire to be allowed. The series will still be using the bar-code recording system for qualifying and feature events. All 800 tires must be MCS 800 thins.

*Junior 3 drivers that are on the bubble and allowed to race the Senior classes must use track purchased voucher tires in the Senior class.
